# Introduction

“

Nhlalala Manufacturing And Projects was established in 2014 by Mr Richard Sithole. We are a young and dynamic company that is managed by an efficient and committed team. Our strong entrepreneurial focus and engineering experience contributes to the growth and development of our company. With more than 15 years in manufacturing it gives us the upper edge and affords us many opportunities. We have an excellent level of loyalty from our staff and their willingness to learn ensures that we lead the market in technology and skills. Our Customers always get first class treatment and products. .

Our flexibility, competitive pricing, experience and specialised advice sets us apart. We are a company with integrity and respect for our customers.

Our Stable workforce is ready to adapt to any size project, we are on standby to meet your needs.

We promise to deliver world class services and solutions that exceed our customers expectations while earning equitable returns needed to sustain local employment our welfare and environmental surroundings to not only grow our company but also our country.
